

EXPERIENCE

ENARXI INNOVATION PVT LTD | AI/ML Engineer

Feb 2026 – Present | Chennai, India

- Developed an AI-powered **Conveyor Belt Monitoring** System for **JSW Steel** using **YOLOv8**, achieving **96%** defect detection accuracy and reducing manual inspection time by 70% through real-time damage detection.
- Built a real-time **Material Detection** and Classification pipeline capable of processing **30+ FPS** while maintaining **95%** classification accuracy.
- Designed a **Cement Bag Counting** System using object detection and tracking, achieving **99%** counting accuracy and automating inventory verification.
- Engineered a **BOM Automation** solution that reduced manual processing time by **60%** and improved data extraction accuracy to **98%**.
- Developed an enterprise **AI Agent** using **LLMs, RAG, FastAPI, and vector databases**, reducing document retrieval time from minutes to seconds.
- Integrated **YOLOv8, OpenCV, FastAPI, PostgreSQL, and REST APIs** to deploy scalable AI applications with sub-second inference latency.

EDUCATION

Bachelor of Technology in Computer Science and Engineering

BS Abdur Rahman Crescent Institute Of Science and Technology
2022-2026

HSC, State Board, Class XII - 80%

ST. Sebastian Mat. Hr. Sec School, Pallavaram, Chennai,
2021-2022

SSC, State Board, Class X - 82%

ST. Sebastian Mat. Hr. Sec School, Pallavaram, Chennai,
2019-2020

PROJECTS

LangGraph AI Question Answering Web Application

- Built an AI-powered question-answering web application using **FastAPI, LangGraph, Gemini LLM, and RAG**, delivering contextual, document-aware responses through intelligent workflow orchestration.
- Designed a multi-stage AI pipeline with query validation, intent routing, document retrieval, response generation, and retry mechanisms to ensure accurate, reliable, and controlled outputs.

AI Movie Synopsis Evaluation System (Gemini API)

- Built a Flask-based multi-agent AI application using **Gemini LLM** to analyze movie synopses and generate AI-powered genre classification, scoring, and content evaluation.
- Designed a modular **multi-agent architecture** with specialized agents for analysis, classification, and response generation, improving scalability and maintainability.

SKILLS

Programming Languages

- Python

Databases

- PostgreSQL
- MongoDB
- SQL

AI/ML

- Machine Learning
- Deep Learning
- Computer Vision
- Image Processing
- NLP
- GenAI
- LLM
- RAG

Frameworks & Tools

- LangChain
- LangGraph
- YOLOv8
- FastAPI
- OpenCV
- PyTorch

Automation & Development

- AI Automation
- Chatbot
- Playwright
- AI Agent

CORE COMPETENCIES

- Problem-Solving & Debugging
- Analytical & Data-Driven Thinking
- Technical Communication
- System Design Thinking
- Collaboration & Teamwork

CERTIFICATIONS

- Besant Technologies - Data Science
- NSP Nexus - Web Development
- NSP Nexus - AI&ML
- IBM - Web Development
